

## Ziarah Programme

**11<sup>TH</sup> SEPTEMBER 2020** - As a part of its caring for the community pillar initiatives, TDM Berhad continues its corporate social responsibility (CSR) - "Ziarah Programme", spending time visiting patients at the Kuala Terengganu Specialist Hospital (KTSH), our subsidiary hospital under KMI Healthcare, today.

The team led by our Syariah and Syakhsiyah Department visited ten patients, checking on their health progress, and extending guidance on "Ibadah" practice during the time of sickness. We genuinely hope our visit has helped to cheer them up and change their perspective of their challenging moment for the better.

Being a responsible and caring brand that is no stranger to Terengganu's community, we feel the need to connect and touch the hearts of the people, connecting well with them during the time of need. We firmly believe that providing support is a way of helping, whereby supporting the community is a big part of our business direction.

"Ziarah Programme" is another extension of our CSR initiatives - our team would volunteer to visit a number of patients at KTSH, twice a month.
