KUALA TERENGGANU, Dec 14 -- The state-owned private hospital, Kuala Terengganu Specialist Hospital (KTSH) today launched the KTSH Homecare services offering clinical and nursing care at the comfort of one's own home.

Terengganu Local Government, Health and Environment Committee chairman Dr Alias Razak said the service enables patients to receive the best care not only at the hospital but also at home.

"So far, the services are offered in three districts, namely Kuala Terengganu, Kuala Nerus and Marang with very affordable packages," he told reporters after launching the KTSH Homecare here today.

Meanwhile, KTSH general manager Salina Long said most of the customers of the service are Terengganu people living outside the state who need help to care for their elderly family members.

KTSH Homecare covers comprehensive treatment and is supported by services offered in hospitals such as specialist consultations, physiotherapy, pharmacy, dietetics and nutrition, as well as ambulance services.
