PETALING JAYA: TDM Bhd, through its subsidiary, TDM Plantation Sdn Bhd (TDMP), an oil palm plantation company, is committed to sustainable practices and good agriculture by setting a target to achieve 100% local general labour and 70% local harvesters in plantations by 2027.

To achieve this goal, TDM executive director Najman Kamaruddin said, TDMP has formulated strategies and approaches to realise the dream.

He added that the company plans to increase the use of mechanisation and precision agriculture technology in oil palm plantations to increase productivity efficiency and reduce dependence on human labour.
